DETAILED ACTION

1. This Office action is in response to Application No. 09/772,748, filed on 01/30/2001.
2. Claims 1-26 are pending.

CLAIM OBJECTION

3. Claims 3, 5, and 12 are objected to because of the following informality. Applicant is advised to define the acronym "VETO". Appropriate correction is required.

Claim Rejections - 35 USC § 102 (b)

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 (b) that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

Art Unit: 3621

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-26 are rejected under 35 U.S.C. 102 (b) as being anticipated by Arnold et al. (U.S. Pat. No. 6,016,504).

As per claims 1, 2, 4, 6-11, and 13-26 Arnold discloses a method for establishing and maintaining a virtual outlet relationship on the Internet between an entity that controls and manage a Web site constituting a virtual outlet and a merchant (which is readable as Applicant's claimed invention wherein it is stated that a method in which a virtual purchase information) virtual purchase information, which does not include any identifier of a real financial account, is provided, in an on-line connection to a merchant, to pay for an item (see., fig 1A, col 4, lines 1-32), the merchant provides the item and the virtual purchase information to a delivery service (see., Fig 5, it is inherent to realize that the organization's address in fig 5 can be sent to a delivery service, col 9, lines 10-45), at the delivery service, the virtual purchase information is converted to a real delivery address (see., Figs 1A, 1B, and 5, col 7, lines 30-67, col 8, lines 1-6), and the item is delivered to the delivery address (see., col 7, lines 30-67, col 8, lines 1-6).

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary

Art Unit: 3621

skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 3, 5, and 12 are rejected under 35 U.S.C. 103 (a) as being unpatentable over Arnold et al. In view of Official Notice.

As per claims 3, 5 and 12, Arnold discloses the claimed limitations as stated in claims 1 and 4 above.

It is to be noted that Arnold fails to explicitly disclose that the delivery service includes FEDEX or UPS or the United States Postal Service. However, the Examiner hereby takes Official Notice that FEDEX or UPS or United States Postal service are notoriously well-known in the art, and therefore, it would have been obvious to a person of ordinary skill in the art to include a delivery system that includes FEDEX or UPS or USPS because it is a mean of delivery goods or items to customers.
